

Pregnant Sow Morning Checklist

.....

On our farms, every morning we check on our pregnant sows for well-being and comfort.

- ✓ Observe every animal for wellness
- ✓ Make sure feeders work correctly
- ✓ Make sure sow has water
- ✓ Identify any sick or injured sow that needs to go to the hospital barn area
- ✓ Record sows that show signs of not being pregnant
- ✓ Scrape and sweep barns as needed
- ✓ Check equipment in barns for maintenance issues
- ✓ Check ventilation equipment and record high/low temperatures
